

Welcome to the Library of the National Fire Service College — a premier knowledge hub dedicated to supporting academic excellence and advanced research in fire engineering, fire safety, disaster management, and allied disciplines.

The Library is committed to developing and maintaining a comprehensive and specialized collection of resources that cater to the academic, training, and research needs of faculty members and trainees/students. It strives to nurture competent, versatile, and socially responsible professionals through a pragmatic yet empathetic learning approach, equipping them to meet the challenges of an ever-evolving world.

The Library is housed in a separate ground plus two-storied building. The Library offers a spacious, well-organized, and reader-friendly environment. It is widely regarded as one of the finest special libraries in the country in the field of fire science and safety studies.

The collection is rich and diverse, featuring authoritative national and international publications, including standards, codes, reference works, research journals, and technical literature from leading organizations and publishers such as National Fire Protection Association, Bureau of Indian Standards, British Standards Institution, Springer, Elsevier, etc. The Library continuously works to expand and update its collection to ensure access to the latest knowledge and developments in the field.

Library Timings

Monday	9:30 to 18:00
Tuesday to Friday	9:30 to 20:00
Saturday	12:00 to 20:00

The Library offers a range of modern facilities to enhance the learning experience, including:

- A well-equipped Reading Room
- High-speed Wi-Fi connectivity
- A dedicated Multimedia Laboratory

The Library follows a fully open-access system, enabling users to freely browse the shelves and directly access materials of their interest, thereby encouraging independent learning and exploration.

With its strong infrastructure, rich resources, and learner-centric services, the Library stands as a cornerstone of academic and professional development at the National Fire Service College.
